Moku Builders is sensitive to issues involved in managing a project when the owner is not on site. We strive, in collaboration with the owner to produce a home that is aesthetically pleasing, efficient in all aspects of its design, and within your budget.

Moku Builders also offers a Project Coordinator to assist you in the selections of interior and exterior materials that can often become confusing.

Moku Builders realizes that every choice you make contributes to the health of the island and we are committed to utilizing earth friendly resources and earth friendly materials that contribute to a sustainable future. Living green can be an individual choice but we like to think of it as our responsibility.
